

## Basic Argumentation With FREECASH

### *Review the FREECASH categories*

F = Freedom, Fairness, Legality, Human Rights, Social Justice

R = Religion, Morality, Ethics

E = Economics, Monetary Issues, Finances, Expenses

E = Environment (types of environments = natural, rural, urban, workplace, home, school, etc.)

C = Convenience, Comfort

A = Appearance, Aesthetics

S = Safety, Security

H = Health, Well Being (types of health = individual, societal, mental, physical, emotional, spiritual, etc.)

Each FREECASH term includes the positive and negative sides of ideas within the category. Example: Religion includes both morality and immorality

### *Model Thesis/ Position Statements:*

Because (the issue) is inconvenient and unsafe, it should be banned.

The financial and health factors of (the issue) will lead to positive/ negative long-term consequences.

(The issue) should be outlawed for reasons of fairness and morality.

(This issue) would positively affect people who live, study, and work in both rural and urban environments.

While (the issue) has an initial advantage of convenience, the environmental destruction caused would lead to horrendous long-term consequences.
